

## COVID-19 Safety Protocol

Kids Christian Academy recognizes that the children, staff, family health and safety is the priority in this state of vigilance during the pandemic. The most effective way to minimize risk outside our homes is to be proactive in slowing the spread of diseases. This brochure will explain that mission and what you should expect when visiting our facility.

## Children Experience

Children are encouraged but will not be required to wear face covering. Parents will receive a washable face covering for their child upon enrollment. Combo packs of 3 multicolored face coverings will be available for purchase upon request.

## Arriving at the Facility

Only one parent with their children will be allowed in the lobby, one at a time. The child will have their temperature checked. Children will be able to attend the facility showing a temperature reading below 99.9 and will have the bottoms of their shoes sprayed with a virus killing solution before entering the classroom. Immediately upon entering the classroom, the child will wash their hands and join their classmates.

During their day, the child will interact “normally”, although very strategic social distancing practices have been put in place to lower the risk of disease spread. These can be found on the CDC website.

## Parent Experience

Adults entering the facility must wear a face covering. Only one parent is allowed in the lobby area, one at a time. Upon arriving at the facility, please be aware that social distancing protocols are in place and will be strictly enforced for the safety of the children. As you walk towards the building entrance, please observe if there is a parent in front of you waiting to enter the facility. You will see floor sign markings of social distancing waiting points where you will need to stand and wait your turn to enter the building. A staff member will greet you at the entrance wearing a face covering and escort you over to take your child's temperature. Please help your child maintain balance while the bottom of their shoes get disinfected prior to entering the classroom where they immediately will wash their hands and join their friends.

## Parent - Teacher Updates

Kids Christian Academy will schedule Parent conferences via Zoom to lower the risk of spreading Covid-19. The Facility Director will send an invitation for you to join her and your child's teacher online to your email on record. Teleconferencing usage permits us all to meet conveniently while observing the safety and protocols of social distancing.

## Lobby Area

We ask that you please limit your time in the facility while in the lobby area. Signing in your child and tuition payment is a quick process at our parent station. You can pay with your credit or debit card. Checks can be dropped in the drop box and will be processed and posted to your account by the next business day.

*"Loving Hands Touching Hearts"*

## Teacher Staff Requirements

- Must test negative for Covid-19
- Temperature checks below 99.9
- Face covering is required in facility
- Oxygen level daily health check
- Shoes disinfected to enter class
- Wash hands upon entering class
- Eye protection recommended
- Breaks exclusively in the facility

## Facility Sanitizing Protocol

The following is a list of areas that will be sanitized throughout the day: toys, tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks. The lobby floor area will be totally mopped and sanitized a minimum of 3 times daily. If someone in the facility is confirmed to have contracted Covid-19, health officials, DCF and ELCOC will be immediately notified, and the facility will close 2 days for guidance & deep cleaning/sanitizing.
